

2014 Survey of programme countries on UN operational activities for development

Welcome to this survey on UN development cooperation, requested by the UN General Assembly.

The aim of the survey is to give programme countries an opportunity to provide feedback with a view to improving the performance of the UN development system. The survey report will serve as an important input to the review by the UN Economic and Social Council of the continued effectiveness, efficiency and relevance of UN operational activities for development.

The survey respondents are senior government officials responsible for or closely associated with coordinating UN development cooperation at the country level. We would like to encourage you to consult with relevant colleagues in line Ministries who are responsible for cooperation with some UN agencies, such as specialized agencies. As an aid to these consultations, we have provided a copy of the questionnaire that can be printed out.

Please be sure to submit the official response online. The software allows the questionnaire to be saved and reopened at a later stage on the same computer. Only one questionnaire may be completed per country.

Unless otherwise indicated, please select only one answer for each question.

Responses and comments will be treated in strict confidence. The reporting will not contain any data or statement from which a reader can identify the source. Responses will be amalgamated by groups of countries.

If you have any questions, please contact the QCPR team at qcpr@un.org.

Thank you for your cooperation!
