

QCPR 2022 Survey of United Nations Country Team Members

Welcome to the UN Country Team members survey.

This survey is administered by the UN Department for Economic and Social Affairs (DESA) as an input to the preparation of the Secretary-General's report on the implementation of the UN General Assembly's resolutions on the [Quadrennial Comprehensive Policy Review \(QCPR\) of the UN system's operational activities for development \(A/RES/75/233\)](#) and [on the repositioning of the United Nations Development System \(A/RES/72/279\)](#) and the report of the UNSDG Chair on DCO and the RC system.

The aim of the survey is to enable UN Country Teams (UNCTs) to provide feedback on country level implementation of the QCPR and the UNDS repositioning.

The survey contains questions for completion by individual UN Country Team members. Your entity, as part of the UN development system, has been requested to distribute this survey to its UN Country Team representative in each country. The survey will also be transmitted by DCO to the UNCT members listed on UNCT websites, to ensure full coverage.

Responses and comments will be treated in strict confidence by the Secretariat and will remain anonymous. The data will be used solely for the purposes of the mandated reporting of the Secretary-General and the Chair of the UNSDG, and as a feedback loop to help inform continued improvements in the work of United Nations country teams. The reporting will only be shared in aggregate form and will not contain any data or statement from which a reader can identify the respondent. Responses will be also amalgamated by groups of countries, regions, country typologies and UN entities.

Please note that only one survey response can be accepted per entity representative per country. If you are a member of more than one UNCT, you may provide a general response that covers the UNCTs in which you are a member. If you experience variation between UNCTs, you may submit individual responses for specific UNCTs. If completing multiple submissions (for more than one country), please close the browser and click on the survey link again for a new submission, specifying the country in the first section of the survey.

With some browsers, the software allows the questionnaire to be saved and reopened at a later stage on the same computer. You may also navigate forwards and backwards within the questionnaire. For reference, a MS Word copy of the questionnaire was included in the original email announcing the launch of this survey.

In this questionnaire, the term 'UN entities' is used to describe UN Specialized Agencies, UN Funds and Programmes, and Departments of the UN Secretariat that are carrying out or supporting operational activities for development.

If you have any questions regarding the survey, please contact the DESA QCPR team at qcpr@un.org.

Thank you for your cooperation.

II. The UN Development System Offer

The integrated nature of the 2030 Agenda for Sustainable Development calls for a UNDS that works in a coordinated and coherent manner while preserving each entity's mandate and role and leveraging each entity's expertise. The UN development system needs to move towards integrated action in response to the integrated and indivisible nature of the 2030 Agenda, by operating as a system within and among countries and at the regional and global levels to address the needs and priorities of programme countries (OP 114, 86).

*Alignment of UNDS operational activities for development with national plans, strategies and priorities reflects **a tailored, demand-driven approach and strong national ownership and leadership** (OP 2, 4).*

*Entity-specific **Country Programme Documents (CPDs) or equivalent instruments** should be derived from the UN Sustainable Development Cooperation Framework's agreed priorities (OP 71, 72, 73, 74, 76). Support the*

Cooperation Framework by substantially increasing common resource mobilization and distribution for joint programmes at the country level (OP 59, 63).
