

Operational Activities for Development Segment of ECSOC
Session 4: Regional Repositioning
UK Intervention

A report recently released by UNU CPR on regional prevention strategies examined the role of Regional Collaboration Platform and Issue-based coalitions. The report notes misunderstandings regarding the role of the platforms and coalitions in support of prevention activities. Responding to recommendations within the report, are there a consistent set of tools and resources that can be deployed in all regions to support prevention approaches? Moreover, how are IBCs working drivers of conflict – notably, how are they prioritising work between addressing emergent drivers versus the long standing drivers?

Noting the critical role that regional offices have in reinforcing the capacity of country offices during crisis. Can you speak to how the regional architecture can surge in to support the country teams during crisis?
