

## **Republic of Korea interventions on dialogue with heads of programs and funds**

Our delegation appreciates that the UN Funds and Programs are making efforts to enhance coordination and collaboration within UNDS, especially through the inter-agency working group on strategic plans. I also wish to emphasize the importance of partnership. Not only should the UN strengthen coordination within the UN system, UNDS should also intensify its collaboration with external stakeholders. I wish to ask what efforts are made to promote partnership in implementing QCPR.
