Development Segment - Side Event

## **DRIVING COHERENCE AND PARTNERSHIP:**

MAINSTREAMING THE  
SUSTAINABLE DEVELOPMENT  
GOALS IN STRATEGIC  
PLANNING

The 2030 Agenda for Sustainable Development's commitment to 'leave no one behind and reach those furthest behind first' challenges the international community to move beyond a focus on meeting immediate needs in order to improve the lives of the most vulnerable and at risk populations.

Building on WFP's experience in formulating its Strategic Plan 2017-2021, the side event will explore avenues of leveraging inclusive and effective partnerships that incorporate the Quadrennial Comprehensive Policy Review key objectives in the context of the 2030 Agenda.
