

ECOSOC Decision 2004/314

Contribution of the Commission on Science and Technology for Development to the high-level segment of the Economic and Social Council

At its 51st plenary meeting, on 23 July 2004, the Economic and Social Council took note, during its consideration at its high-level segment of the theme “Resources mobilization and enabling environment for poverty eradication in the context of the implementation of the Programme of Action for the Least Developed Countries for the Decade 2001-2010”, of the contribution of the Commission on Science and Technology for Development on this topic, which was addressed by the Commission at its seventh session, in 2004, under the substantive theme “Promoting the application of science and technology to meet the development goals contained in the Millennium Declaration”, and encouraged all stakeholders to consider the recommendations thereon contained in the report of the Commission on its seventh session.¹
