

Resolution

2010/34

Review of United Nations support for small island developing States

The Economic and Social Council,

Guided by the Charter of the United Nations,

Recalling the Declaration of Barbados,¹ the Programme of Action for the Sustainable Development of Small Island Developing States² and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States (Mauritius Strategy for Implementation),³

Recalling also Economic and Social Council resolution 2009/17 of 29 July 2009 on the review of United Nations support for small island developing States,

Taking note of the report of the Committee for Development Policy on its twelfth session⁴ containing the independent views and perspectives of the Committee on United Nations support for Small Island developing States,

Recalling that the Economic and Social Council, by its resolution 2009/17, decided to make available a summary of the debate held during its 2010 substantive session together with the independent views and perspectives of the Committee for Development Policy as a contribution to the two-day high-level review, to be conducted during the sixty-fifth session of the General Assembly, of progress made in addressing the vulnerabilities of small island developing States,

Recognizing that, although they are afflicted by economic difficulties and confronted by development imperatives similar to those of developing countries generally, small island developing States also have their own particular vulnerabilities and characteristics, which render the difficulties that they face in the pursuit of sustainable development particularly severe and complex,
