The pandemic has highlighted the need to address disparities such as those in digital connectivity.

As the world recovers from the pandemic, coordinated policy responses are needed to ensure countries will not backtrack the advancement of the 2030 Agenda

Resolution on the assessment of the progress made in the implementation of the WSIS (link here)

Resolution on Science, technology and innovation for development (link here)

Countries should develop national strategies towards developing & deploying Industry 4.0

Closing digital divide is crucial for poverty reduction, inclusion in all forms, and climate change mitigation and adaptation.

CSTD has a key role to play in the WSIS+20 review as it did in the 10-year review back in 2015.

Upcoming: 26th Session CSTD (27 - 31 March 2023)

Technology and innovation for cleaner and more productive and competitive production

Ensuring safe water and sanitation for all: a solution by science, technology and innovation
