The 39th Session of ISAR reiterated the positive impact of the GCI also as a capacity-building tool for the strengthening of national sustainability reporting frameworks. ISAR expressed appreciation for the efforts made by the new regional partnerships in Africa and Latin America aimed at promoting sustainability reporting. The group of Experts stressed the importance of identifying lessons learned and best practices in strengthening national sustainability reporting infrastructures. Lastly, it recognized the usefulness of the ADT in assessing the national ecosystem for high-quality reporting.

The meeting was attended by 495 experts from 96 countries.

ISAR is the United Nations focal point on financial and sustainability reporting matters. It assists Member States in the implementation of best practices to promote harmonization and improvement of enterprise reporting to facilitate financial stability, international and domestic investment, social and economic progress. ISAR is open to all UN Member States, and has 34 formal members, including 9 African, 7 Asian, 6 Latin American, 3 Eastern European, and 9 Western European and other States.

ISAR Honours was launched in 2018 to raise awareness and disseminate global best practices on sustainability and SDG reporting. It recognizes policy, institutional, and capacity building initiatives at the national and international level that enhance the quality and comparability of entity reporting. Since its launch, more than 200 initiatives have been nominated by over 40 countries.

The ADT is a tool to measure the level of development of a country’s financial and sustainability reporting environment. The ADT provides a quantitative benchmark of a country’s position and points at priorities for improvement. It also helps to build country action plans to improve the regulatory, institutional, and human capacity foundations of enterprise reporting, to foster a favourable investment climate and sustainable development.

Since its inception, UNCTAD has conducted 23 ADT assessments in 18 countries, while 2 more assessments are in progress.

UNCTAD - ISAR possesses a comprehensive technical assistance programme which relies on the use of the capacity building tools and cooperation mechanisms. This includes the Accounting Development Tool (ADT), the Guidance on Core Indicators for sustainability and SDG impact reporting by companies, and the Regional Partnerships for the promotion of sustainability and SDG reporting. Since its inception, UNCTAD has conducted 23 ADT assessments in 18 countries, while 2 more assessments are in progress.

STRENGTHENING SUSTAINABILITY REPORTING INFRASTRUCTURE IN DEVELOPING COUNTRIES

Guidance on Core Indicators for sustainability and SDG impact reporting (GCI) and its case studies, the Core SDG indicators Training Manual, the e-learning course on Implementation of core SDG indicators for sustainability reporting by companies, and the Regional Partnerships for the promotion of sustainability and SDG reporting. Since its inception, UNCTAD has conducted 23 ADT assessments in 18 countries, while 2 more assessments are in progress.

FOSTERING MSMEs RESILIENCE AND GROWTH

UNCTAD has a set of tools and capacity building activities available to increase financial literacy, promote access to finance and help MSMEs to stay in the formal market and grow. The tools also include the Accounting Training Manual for MSMEs, the Train of Trainers (TOT) Workshop on Accounting for MSMEs to assist participants to learn how to make the best use of the Accounting Training Manual for MSMEs, and the e-Accounting tool for MSMEs that provides MSME owners with a free and simple tool to generate meaningful financial statements.

ISAR Tools and Publications

The exhaustive list of publications is available on the ISAR website.
