ESCWA is at the forefront of efforts to strengthen Sustainable Development Goal (SDG) data coherence and access in the Arab region through:

**Economic and Social Commission for Western Asia (ESCWA)**

**Organizing the first Arab SME Summit**, which brought together more than 800 entrepreneurs, investors, business enablers and policymakers to help Arab small and medium-sized enterprises (SMEs) access regional and international markets and explore opportunities beyond borders. As a result of the summit, $130 million was committed to support SMEs in the Arab region.

**Launching the Josour initiative**, which bridges the gap between young people and opportunity providers by connecting young job seekers with training, internships and work openings and facilitating dialogue between businesses, policymakers and young people.

**Developing the ESCWA Skills Monitor**, which is an artificial intelligence interactive tool that uses big data and machine learning to analyse labour markets and skill needs at the national and regional levels. The monitor connects employers and job seekers, identifies and communicates job openings, generates occupational skill profiles, and provides up-skilling suggestions for job seekers.

**Supporting opportunities beyond borders**

**Connecting employers and job seekers**

**Offering recommendations on the effective use of Special Drawing Rights (SDR) to build regional solidarity, increase countries’ fiscal space, and support sustainable recovery from the COVID-19 pandemic.**

**Co-organizing the International Dialogue on Islamic Social Financing and the SDGs**, which explored ways to leverage Islamic financing mechanisms to support sustainable development and emergency relief for the most vulnerable.

**Producing the SDG Data Collection Tool** in coordination with 35 custodian agencies. The tool provides easily accessible guidance and recommendations on data collection methods for each SDG indicator.

**Organizing a series of 50 webinars** with United Nations and Arab League to strengthen inter-sectoral coordination and knowledge sharing on SDG data and build countries’ capacities to report on SDG indicators.

**Conducting 150 bilateral meetings** with 18 countries to build national SDG reporting platforms and improve data quality and availability.

**Building and maintaining the Arab SDG Monitor** as a central platform for SDG data, providing user-friendly access to up-to-date information on the implementation of the SDGs at the national and regional levels.

**Targeting SMEs**

**Connecting employers and job seekers**

**Training experts**

**Building reporting platforms**

**Hosting SDG data platform**

**ESWA is supporting decent work and entrepreneurship opportunities through:**

**Organizing the first Arab SME Summit**, which brought together more than 800 entrepreneurs, investors, business enablers and policymakers to help Arab small and medium-sized enterprises (SMEs) access regional and international markets and explore opportunities beyond borders. As a result of the summit, $130 million was committed to support SMEs in the Arab region.

**Launching the Josour initiative**, which bridges the gap between young people and opportunity providers by connecting young job seekers with training, internships and work openings and facilitating dialogue between businesses, policymakers and young people.

**Developing the ESCWA Skills Monitor**, which is an artificial intelligence interactive tool that uses big data and machine learning to analyse labour markets and skill needs at the national and regional levels. The monitor connects employers and job seekers, identifies and communicates job openings, generates occupational skill profiles, and provides up-skilling suggestions for job seekers.

**ESCWA is encouraging innovative SDG and climate financing solutions through:**

**Launching the Debt Swap/Donor Nexus Initiative** to support countries in financing climate action by facilitating agreements between debtors, creditors and donors/development partners to redirect debt payments towards climate-resilient projects.

**Providing recommendations on the effective use of Special Drawing Rights (SDR) to build regional solidarity, increase countries’ fiscal space, and support sustainable recovery from the COVID-19 pandemic.**

**Co-organizing the International Dialogue on Islamic Social Financing and the SDGs**, which explored ways to leverage Islamic financing mechanisms to support sustainable development and emergency relief for the most vulnerable.

**Facilitating agreements**

**Offering recommendations on the effective use of Special Drawing Rights (SDR) to build regional solidarity, increase countries’ fiscal space, and support sustainable recovery from the COVID-19 pandemic.**

**Exploring innovative financing**

**Co-organizing the International Dialogue on Islamic Social Financing and the SDGs**, which explored ways to leverage Islamic financing mechanisms to support sustainable development and emergency relief for the most vulnerable.

**Building and maintaining the Arab SDG Monitor** as a central platform for SDG data, providing user-friendly access to up-to-date information on the implementation of the SDGs at the national and regional levels.

**Developing the Arab Trade Gateway (ATG)**, which provides interactive analytical, data and policy tools that help policymakers advance regional and global trade integration. It includes a trade policy simulator and robust tools for assessing market access, trade performance and negotiations.

**ESCWA is promoting regional trade integration through:**

**Developing the Arab Trade Gateway (ATG)**, which provides interactive analytical, data and policy tools that help policymakers advance regional and global trade integration. It includes a trade policy simulator and robust tools for assessing market access, trade performance and negotiations.

**Building reporting platforms**

**Hosting SDG data platform**

**Production**

**Building and maintaining the Arab SDG Monitor** as a central platform for SDG data, providing user-friendly access to up-to-date information on the implementation of the SDGs at the national and regional levels.

**Developing the Arab Trade Gateway (ATG)**, which provides interactive analytical, data and policy tools that help policymakers advance regional and global trade integration. It includes a trade policy simulator and robust tools for assessing market access, trade performance and negotiations.

**Creating tools for policymakers**

**Launching the Arab Economy-wide Trade Simulator Interface (AETS)**, a user-friendly web-based tool that enables non-specialized trade negotiators to use a dynamic multi-country computable general equilibrium model to analyse the effects of potential reforms.

**ESCWA is promoting regional trade integration through:**

**Launching the Arab Economy-wide Trade Simulator Interface (AETS)**, a user-friendly web-based tool that enables non-specialized trade negotiators to use a dynamic multi-country computable general equilibrium model to analyse the effects of potential reforms.

**ESWA’s submission to ECOSOC’s Coordination Segment (1-2 February 2023)**
