UNITED NATIONS COMMITTEE OF EXPERTS ON GLOBAL GEOSPATIAL INFORMATION MANAGEMENT (UN-GGIM)

ADDRESSING GLOBAL POLICY AGENDAS ...

The 2030 Agenda for Sustainable Development • Sendai Framework for Disaster Risk Reduction • Paris Agreement on Climate Change • Sevilla Commitment on Financing for Development • New Urban Agenda • Our Ocean, Our Future: Call for Action • ABAS: A Renewed Declaration for resilient Prosperity for SIDS • Pact for the Future

... WITH GEOSPATIAL INFORMATION

Digital Ecosystems • Integration • Knowledge • Technology • Solutions • Demographics • Land Administration • Geodesy • Data • Earth Observations • Marine Information • Resilience & Risk management • Artificial Intelligence • Analysis

THE COMMITTEE OF EXPERTS ...

Established by ECOSOC in 2011, UN-GGIM is the intergovernmental mechanism for developing leadership, resources and capabilities of all Member States to strengthen national geospatial information management – ensuring sustainable development and leaving no one, no where behind.

... DELIVERING GLOBAL GUIDANCE, SHARING KNOWLEDGE

Global Thought Leadership • Strategic Engagement & Communication Across Sectors • Digital Transformation & Safeguarding • Good Governance • Data-Driven Decision-Making • Diversity, Equity and Inclusion • Accessibility, Interoperability & Transparency • Collaborative Multi-Stakeholder Partnerships • Capacity Development

... STRENGTHENING EVIDENCE-BASED DECISION MAKING FOR NATIONAL PRIORITIES

Guidance • Policy • Governance • Capacity • Communication • Digital Ecosystems • Integration • Knowledge • Technology • Solutions • Demographics • Land Administration • Geodesy • Data • Earth observations • Marine information • Resilience & Risk

UNDERSTANDING OUR WORLD, GUIDING DECISIONS AND ACTIONS USING INTEGRATED GEOSPATIAL INFORMATION FOR OUR COMMON FUTURE

KEY HIGHLIGHTS OF UN-GGIM IN 2025

- Endorsed its **Strategic Framework 2025–2030**
- Updated the **Global Statistical and Geospatial Framework** in coordination with the Statistical Commission for data integration
- Increased implementation of its overarching framework for **enhancing geospatial information capacities**
- Developed key document on **Positioning the Future geospatial information ecosystem**
- Coordination with of the **UN System** on geospatial information through the UN Geospatial Network
- Welcomed the organization of the **Third UN World Geospatial Information Congress**, Riyadh, Saudi Arabia, 16–19 November 2026

**A WORLD WHERE GEOSPATIAL INFORMATION SOLVES LOCAL
TO GLOBAL CHALLENGES**
